This book is based on the presentations and discussions at a joint Academia Europaea/Wenner-Gren Conference held in Stockholm in early November 2009. The initiative for the conference was taken by the HERCULES (Higher Education, Research and Culture in European Society) expert group of the Academia Europaea, and the programme was elaborated by a small Organizing Committee consisting of the Professors De Corte (chair), Fenstad, Weaire, and Theorell.

The conference could not have been held, and the present volume could not have been published without the generous financial and logistical support of the Wenner-Gren Foundations, for which we are very grateful. Our special thanks go to Professor Bertil Daneholt, Science Secretary of the Foundations and his Administrative Assistant, Maria Helgöstam. We also thank our colleagues from the Organizing Committee of the conference as well as the Executive Secretary of the Academia Europaea, David Coates and his Administrative Assistant, Teresa McGovern for their help and assistance during the preparation of the meeting. Last, but not least, we would like to express special thanks to Betty Vanden Bavière for her valuable assistance in preparing the final manuscript for this volume.
